

## Junior Financial Analyst

We are the leading global information services company, providing data and analytical tools to our clients around the world. We help businesses to manage credit risk, prevent fraud, target marketing offers and automate a decision making. We also help people to check their credit report and credit score, and protect against identity theft.

In 2018, for a fifth consecutive year, Experian has been named to Forbes Magazine's Top 100 list of the "World's Most Innovative Companies."

We employ approximately 17,000 people in 37 countries and our corporate headquarters are in Dublin, Ireland, with operational headquarters in Nottingham, UK; California, US; and São Paulo, Brazil.

At Experian, we are committed to building an inclusive culture and creating an environment where people can balance successful careers with their commitments and interests outside of work. Our flexible working practices support our belief that this balance brings long-lasting benefits for our business as well as our people. Some roles lend themselves to flexible options more than others, and if this is important to you, we are open to discussing agile working opportunities during the hiring process

We are currently looking for a Junior Financial Analyst who will provide support across management and general accounting, financial analysis, reporting, forecasting and the conversion of data into management information. The person on the role will work closely with an UKI business unit and will be directly engaged with finance and business stakeholders.

### Responsibilities:

- Contribute to the delivery of month/year end close activities by:
  - Ensuring financial data is complete, accurate and all transactions are consistent with Experian's accounting policies and IFRS
  - Ensuring consistent financial data quality
  - Owning selected balance sheet accounts and providing detailed, complete and informative balance sheet reconciliations/analysis

- Support preparation of accurate monthly cost forecasts and annual budget where the key assumptions and drivers are clearly understood
- Analysis of transactional data to understand the key performance drivers of the businesses and translation of these trends into a tangible future impact on the business

#### Requirements:

- University degree in Economics, Finance, Accounting or relevant numerate science
- 1-2 year of experience of general financial accounting in a multi-national business environment in accordance with IFRS
- Good understanding of financial management information
- Ability to be proactive and work independently, with the skill to adapt and drive change where necessary
- Technical accounting skills and proficiency with Excel
- Knowledge of systems such as Oracle, Hyperion and OBIEE will be considered as advantage
- Highly logical, numerate individual with an unfaltering attention to detail
- Fluency in English

#### We offer:

- Personal Development - career pathway for professional growth supported by learning and development programs and unlimited access to online educational training courses, learning materials & books
- Work environment - excellent work conditions with friendly environment, recognized strong team spirit, and fun and quality recreation time
- Social benefit package - life insurance, food vouchers, additional health insurance, corporate discounts, Multisport card, and a Share options scheme
- Work-life balance - 25 days paid vacation and 3 additional paid days for participation in Social responsibility events
- Opportunity for Flexible working hours and Home Office
